DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 22, 25, 26 and 27 are rejected under 35 U.S.C. 102(e) as being anticipated by Vukosic (US 6,483,439).

Regarding claim 22: Vukosic discloses a casing comprising a first indicating apparatus (16) for indicating a first set of different electrical states of the device, wherein the first indicating apparatus includes a first plurality of indicating devices (LEDs) that are located on the casing such that at least one of the first plurality of indicating devices

Art Unit: 2612

is visible from each viewing direction for the casing (abstract; col. 3, lines 20-28, 55-60; Figs. 1-3).

Regarding claim 25: Vukosic discloses a second indicating apparatus (18) for indicating a second set of different electrical states of the device, wherein the second indicating apparatus includes a second plurality of indicating devices that are located on the casing such that at least one of the second plurality of indicating devices is visible from each viewing direction for the casing (abstract; col. 3, lines 20-28, 55-60; Figs. 1-3).

Regarding claim 26: See claims 22 and 25 above.

Regarding claim 27: Vulkosic discloses the first and second indicating apparatus comprises different colors (abstract; Fig. 4; col. 3, lines 38-60).

Allowable Subject Matter

Claims 8-21 are allowed.

Claims 23 and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art of Taylor (US 2004/0046676) discloses a multi-status signaling device.
